

## 2004 Haskell Workshop

Snowbird, Utah, USA 22 September, 2004

## **PROGRAM**

08.30	Registration
Sessio	n I: 8.50–10.30 Chair: Henrik Nilsson
08.50	Welcome
09.00	Functional Pearl: I am not a number: I am a free variable Conor McBride (University of Durham), James McKinna (University of St Andrews)
09.30	Plugging Haskell In André Pang (CSIRO Information & Communication Technologies), Don Stewart, Sean Seefried, and Manuel M. T. Chakravarty (University of New South Wales)
10.00	Extending the Haskell Foreign Function Interface with Concurrency Simon Marlow, Simon Peyton Jones (Microsoft Research Ltd.), Wolfgang Thaller
10.30	Break
Sessio	n II: 11.00–12.30 Chair: Jerzy Karczmarczuk
11.00	Functional Pearl: Implicit Configuration – or, Type Classes Reflect the Value of Types Oleg Kiselyov (Fleet Numerical Meteorology and Oceanography Center), Chung-chieh Shan (Harvard University)
11.30	Programming Graphic Processors Functionally Conal Elliot
12.00	wxHaskell: A Portable and Concise GUI Library for Haskell Daan Leijen (Utrecht University)
12.30	Lunch
12.50	Lunch
	n III: 14.00–15.30 Chair: Colin Runciman
Sessio	Type Safe, Self Inspecting Code  Chair: Colin Runciman
<b>Sessio</b> 14.00	Type Safe, Self Inspecting Code Arthur I. Baars, S. Doaitse Swierstra (Utrecht University)  Improving Type Error Diagnosis Peter J. Stuckey (University of Melbourne), Martin Sulzmann (National University of
<b>Sessio</b> 14.00 14.30	Type Safe, Self Inspecting Code Arthur I. Baars, S. Doaitse Swierstra (Utrecht University)  Improving Type Error Diagnosis Peter J. Stuckey (University of Melbourne), Martin Sulzmann (National University of Singapore), Jeremy Wazny (University of Melbourne)  Tool Demonstration: Haskell Type Browser
Session 14.00 14.30 15.00	Type Safe, Self Inspecting Code Arthur I. Baars, S. Doaitse Swierstra (Utrecht University)  Improving Type Error Diagnosis Peter J. Stuckey (University of Melbourne), Martin Sulzmann (National University of Singapore), Jeremy Wazny (University of Melbourne)  Tool Demonstration: Haskell Type Browser Matthias Neubauer, Peter Thiemann (University of Freiburg)  Tool Demonstration: BNF Converter
Sessio 14.00 14.30 15.00 15.15	Type Safe, Self Inspecting Code Arthur I. Baars, S. Doaitse Swierstra (Utrecht University)  Improving Type Error Diagnosis Peter J. Stuckey (University of Melbourne), Martin Sulzmann (National University of Singapore), Jeremy Wazny (University of Melbourne)  Tool Demonstration: Haskell Type Browser Matthias Neubauer, Peter Thiemann (University of Freiburg)  Tool Demonstration: BNF Converter Aarne Ranta, Markus Forsberg (Chalmers University of Technology)
Sessio 14.00 14.30 15.00 15.15	Type Safe, Self Inspecting Code Arthur I. Baars, S. Doaitse Swierstra (Utrecht University)  Improving Type Error Diagnosis Peter J. Stuckey (University of Melbourne), Martin Sulzmann (National University of Singapore), Jeremy Wazny (University of Melbourne)  Tool Demonstration: Haskell Type Browser Matthias Neubauer, Peter Thiemann (University of Freiburg)  Tool Demonstration: BNF Converter Aarne Ranta, Markus Forsberg (Chalmers University of Technology)  Break
Sessio 14.00 14.30 15.00 15.15 15.30 Sessio	Type Safe, Self Inspecting Code Arthur I. Baars, S. Doaitse Swierstra (Utrecht University)  Improving Type Error Diagnosis Peter J. Stuckey (University of Melbourne), Martin Sulzmann (National University of Singapore), Jeremy Wazny (University of Melbourne)  Tool Demonstration: Haskell Type Browser Matthias Neubauer, Peter Thiemann (University of Freiburg)  Tool Demonstration: BNF Converter Aarne Ranta, Markus Forsberg (Chalmers University of Technology)  Break  IN IV: 16.00-17.30 Chair: Martin Sulzmann; Discussion Chair: Daan Leijen  Strongly Typed Heterogeneous Collections

## **Discussion Starters Sought!**

To encourage a live-topic debate inspired by the workshop itself, we seek impromptu discussion starters for the Future of Haskell discussion. For example, one sentence "fireworks" such as controversial assertions or challenging questions. Unsolved problems. Friendly rebuttals of any (or all!) of the workshop papers. Short and pithy (at most 5 minutes, 2 slides) presentations of raw ideas for future Haskell-related work.

If you would like to contribute, approach either the Discussion Chair (Daan Leijen) or the Workshop Chair (Henrik Nilsson) during any of the breaks and briefly explain what you would like to say. If necessary, as there might not be time for all who would like to speak, the Discussion Chair will prioritize. Those who are selected will then be invited to give their discussion starter at some suitable point during the discussion session.
